Football in Cyprus

Football is clearly the number one sport in Cyprus. While the national team has not enjoyed any success of note, the national association has gained an excellent reputation by organising various FIFA/UEFA events (tournaments, courses, meetings). The national team often surprises many observers by defeating higher-ranked countries, mostly on home soil.

The Goal Project

On 22 September 2004, the *Goal* Bureau approved the purchase of a building to be used as association headquarters together with adjoining land. The Cyprus Football Association will thus have an improved working environment, making for increased efficiency in its administration. This major project was financed not only by *Goal*, but also by UEFA's HatTrick programme and the association's own coffers.

Women's football

When, in 1995, today's FIFA President said "The future of football is feminine", it was more than mere lip service. It reflected a strong belief in the huge potential that women's football has to develop. Ever since, FIFA has given targeted support for the efforts of associations who offer women the same opportunities to develop as male players. Launched in 1998, FIFA's Financial Assistance Programme (FAP) introduced a requirement in 2004 for the associations and confederations to invest at least 4% of their FAP funding into women's football. This threshold was increased to 10% in 2005. On top of this commitment, FIFA also promotes the women's game in more general ways by directly financing women's matches and organising competitions and symposiums. Thanks to its development programmes, FIFA is also playing an active role in the training of administrators, coaches, referees and sports doctors.
