Football in Saint Lucia

Football is easily the number one sport in Saint Lucia. Thanks to the funding provided by FIFA through its Financial Assistance Programme, the association has been able to establish a permanent administration. In recent years, Saint Lucia have consistently participated in the later stages of Caribbean qualifying rounds in CONCACAF tournaments such as the Gold Cup, and they have several players in professional leagues abroad, both within CONCACAF and beyond. And now, with a gentle shove in the right direction, there is a palpable sense that it will be possible to achieve more.

The Goal Project

At its meeting on 15 October 2003, the Goal Bureau approved the construction of a technical centre at Union, outside the capital Castries, comprising one natural turf pitch with a security fence, artificial lighting, and a grandstand with offices and changing rooms. This project will be the association's first independent operating base, serving as a technical centre for football development at all levels (national teams, youth etc.).

Women's football

When, in 1995, today's FIFA President said "The future of football is feminine", it was more than mere lip service. It reflected a strong belief in the huge potential that women's football has to develop. Ever since, FIFA has given targeted support for the efforts of associations who offer women the same opportunities to develop as male players. Launched in 1998, FIFA's Financial Assistance Programme (FAP) introduced a requirement in 2004 for the associations and confederations to invest at least 4% of their FAP funding into women's football. This threshold was increased to 10% in 2005. On top of this commitment, FIFA also promotes the women's game in more general ways by directly financing women's matches and organising competitions and symposiums. Thanks to its development programmes, FIFA is also playing an active role in the training of administrators, coaches, referees and sports doctors.
