Football in Andorra

Football, along with skiing, is the most popular and traditional sport in Andorra. As the national association was only founded relatively recently, Andorra's highlights to date include the foundation of the association (1994) and two international matches, against Brazil in 1998, and France in 1999. Koldo (Atletico Madrid, Salamanca) and Idefons Lima (Las Palmas) are the most famous Andorran players.

The Goal Project

At its meeting on 1 May 2003, the *Goal* Bureau approved a project to build a technical centre in Sant Ermengol. However, the association did not receive the papers confirming the transfer of the necessary land from the town council, which made it necessary to transfer the project to La Comella. This new centre will primarily improve youth football.

Women's football

When, in 1995, today's FIFA President said "The future of football is feminine", it was more than mere lip service. It reflected a strong belief in the huge potential that women's football has to develop. Ever since, FIFA has given targeted support for the efforts of associations who offer women the same opportunities to develop as male players. Launched in 1998, FIFA's Financial Assistance Programme (FAP) introduced a requirement in 2004 for the associations and confederations to invest at least 4% of their FAP funding into women's football. This threshold was increased to 10% in 2005. On top of this commitment, FIFA also promotes the women's game in more general ways by directly financing women's matches and organising competitions and symposiums. Thanks to its development programmes, FIFA is also playing an active role in the training of administrators, coaches, referees and sports doctors.
